

CM-100R

Rotational Mattress Overlay

- **Pressure redistribution gel overlay.**
- **Rotational for extended life. Rotatable head to foot and front to back.**
- **Three Multi-Sectioned gel bladders keep gel positioned for maximum pressure reduction**
- **Comfortable low shear, low friction, moisture resistant cover**

Three gel bladders, each sectioned into multiple gel zones keep gel positioned for advanced pressure redistribution. Encased in comfort enhancing sculpted foam and a low shear friction cover the ComfortZone Gel Overlay provides an excellent surface for the prevention of pressure ulcers.
