

Low Air Loss/Alternating Pressure Mattress System

The Patriot CZ-APM combines dual therapies of low air loss and alternating pressure in one unit. Ideal for patients who require treatment for pressure ulcers stages I-IV,. The Patriot CZ-APM pump alternates in 10 minute intervals and the air flow dial provides easily adjustable custom pressure settings for each patients individual requirements. (Medicare code E0277)

Patriot CZ-APM Control Unit

- The Comfort Zone APM controller provides a simple user friendly interface for full mattress operation and proven alternating low air loss therapy.
- Alternating Pressure-Low Air Loss.
- Air flow dial offers easily customized pressure redistribution according to each patient's therapeutic requirements.
- Static function for safe and easy patient transfers and position changes.
- Static Mode stops Alternation and provides low air loss pressure redistribution.
- Visual low pressure alarm alerts clinicians of potential compromised airflow.
- Model: CZ-APM
- 20, alternating air cells provide maximum pressure redistribution.
- Air cells are securely fastened to the base via unique hook and loop system as well as a center cushion coupler to eliminate cushion migration.
- The Patriot CZ-APM low shear/low friction nylon taffeta comforter cover is fluid resistant, anti-microbial/anti-bacterial and vapor permeable.
- Integrated high density foam base provides protection in case of unexpected power outage.
- Weight capacity 400 lbs.
- 2 year warranty.
- Made in the USA.
- 36" x 80" x 8". Custom sizes available.
